

## Bergerson, Joule

Assistant Professor, Department of Chemical and Petroleum Engineering

Selected Publications (2008-2011)

Doluweera G., Jordaan S., Bergerson J., Moore M., and Keith D., "Evaluating the Role of Cogeneration for Carbon Management in Alberta". Energy Policy. Submitted: Nov 2010.

Charpentier A., Kofoworola O., Bergerson J., MacLean H., Life cycle greenhouse gas emissions of current oilsands technologies: GHOST model development and SAGD application. Environmental Science and Technology. Submitted Nov 2010.

Kofoworola O., Charpentier A., Bergerson J., Sleep S., MacLean H., Life cycle greenhouse gas emissions of current oilsands technologies 2: CCS and surface mining application. Environmental Science and Technology. Submitted Nov 2010.

Bergerson, J. A. and D. W. Keith (2010). "The Truth About Dirty Oil: Is CCS the Answer?" Environmental Science & Technology 44(16): 6010-6015.

McKellar J., Bergerson J., MacLean H., 2010. Replacing natural gas in Alberta's oil sands: trade-offs associated with alternative fossil fuels. Energy and Fuels 24: 1687-1695.

Doluweera, G., S. Jordaan, Bergerson J., et al., 2009. Cogeneration and Potential for Emission Reductions in Oil Sands Operations. New York, Ieee.

McKellar J., Charpentier A., Bergerson J., MacLean H., 2009. A life cycle greenhouse gas emissions perspective on liquid fuels from Canadian and U.S. unconventional fossil sources. International Journal of Global Warming.

Charpentier A., Bergerson J., MacLean H., 2009. Understanding the Canadian oil sands industry's greenhouse gas emissions. Ent'l Research Letters 4: pp 11.

Bergerson J. and Keith D., 2008. Smoke, mirrors and carbon. Calgary Herald and Edmonton Journal. Nov. Op Ed related to Carbon Capture and Storage in Canada.
