Research Interests

Dr. Bob Page is known nationally and internationally for his work on energy and the environment in areas such as climate change, emissions trading, environmental impact assessment, and policy and regulation. At TransAlta, he was responsible for the corporation's proactive approach to addressing greenhouse gas emissions that contribute to global warming and climate change. Working within ISEEE and its partner faculties' collaborative, multidisciplinary and mission-oriented framework, Dr. Page will engage in innovative research, education and outreach to advance environmental management and sustainability at the regional, national and international levels.
